

Order beforeUdig Utility Plans

Product Overview & Order Process

beforeUdig is a "Plan request" service designed to assist anyone who requires underground asset plans within Great Britain.

This service enables you to request plans from utilities in a very simple step-by-step process. Once the request has been lodged with beforeUdig each utility is sent a request for asset plans for the area you nominate. The beforeUdig service has been integrated with Stanfords Portal to allow customers to locate & order map files as usual, then before purchase, simply tick the "add utilities search" check box. It couldn't be easier or, at just £15 + vat per search, cheaper!

The beforeUdig service provides comprehensive utility searching including:

- Electricity (Dist + Trans)
- Gas (Dist + Trans)
- Independent operators
- Water
- Sewer
- Drainage
- Oil Pipelines
- Telecoms
- Rail/Underground
- Local government

Utility Plan search requests can be made when ordering OS large scale mapping as either Planning Application Maps (PDF/TIFF) or as Vector Data (DWG/DXF/GIS formats). Adding a beforeUdig request to your map/data order couldn't be simpler – just tick the Utility Map request box in the basket stage of your order:

The order process is as follows:

For instructions on how to place a map/data order ahead of requesting the beforeUdig Utility Plan search, please download the appropriate product quick guide or the Stanfords Portal User Guide.
